TABLE OF CONTENTS

THE DIGITAL REVOLUTION SIGNIFIES A CONVERGENCE OF ADVANCED TECHNOLOGY, ARTIFICIAL .INTELLIGENCE, AND HUMAN INGENUITY WHERE INNOVATION IS HARNESSED AS A STRATEGIC DRIVER TO TRANSFORM -INDUSTRIES, ENHANCE PROBLEM SOLVING CAPABILITIES, AND SHAPE THE FUTURE OF SOCIETY

WHERE INNOVATION MEETS INTELLIGENCE

AILATIX

INNOVATE, AUTOMATE DOMINATE WITH OUR TECHNOLOGY SOLUTIONS

AILATIX is a professional technology services company specializing in digital systems and artificial intelligence solutions. The company provides software development, application design, digital services system maintenance, and technical support through a qualified team operating under experienced and structured management

MISSION

AILATIX's mission is to Design, Implement, and Maintain digital systems that Enhance operational efficiency, Improve service delivery, and Support data-driven decision-making by effective management and supervising teams, regardless of time budget, or requirement changes

VISION

AILATIX's vision is to operate as a reliable digital solutions provider that Supports organizational efficiency, Service quality, and Sustainable growth through the delivery of Structured, Scalable, and Compliant technology solutions across multiple sectors

VALUES

AILATIX operates in accordance with professional standards that prioritize customer Satisfaction, Transparency accountability, and Integrity. The company is committed to continuous Improvement, Operational reliability, and Sustainable development in the delivery of digital solutions

Why Choose Us?

AILATIX is a strategic digital transformation partner through the design and deployment of enterprise digital systems delivering intelligent, scalable and secure systems that enhance institutional efficiency, enable data-driven decision-making and support sustainable economic

AILATIX go beyond traditional technology delivery by providing ready-to-deploy platforms, localized solutions and advanced AI capabilities that accelerate digital adoption, improve service quality, and strengthen operational governance across public and private sectors

تتجاوز مفهوم تقديم التكنولوجيا التقليدي من خلال توفير منصات جاهزة للتطبيق، وحلول محلية، وقدرات ذكاء اصطناعي متقدمة تُسرّع من تبني التحول الرقمي، وتُحسّن جودة الخدمات، وتُعزّز الحوكمة التشغيلية في القطاعين العام والخاص

Key Alignment Areas:

- Digital Government & Automated Services
- Private Sector Enablement
- Data & AI Adoption
- Technology Localization
- Operational Excellence & Sustainability

تُعدّ شركة AILATIX شريكًا استراتيجياً في مجال التحول الرقمي، حيث تُقدّم أنظمة ذكية وقابلة للتطوير وآمنة تُعزّز الكفاءة المؤسسية، وتُمكّن من اتخاذ القرارات بناءً على البيانات، وتدعم النمو الاقتصادي المستدام

Ailatix strategy

AILATIX applies a structured project delivery methodology covering requirements analysis, system design, development, testing, deployment, and post-implementation support to ensure quality, security, and compliance

تمر عملية تطوير النظام بعدة خطوات متسلسلة لنضمن تحقيق كل المتطلبات بجودة وكفاءة عالية, حيث تطبق شركة آيلاتكس منهجية منظمة لتسليم المشاريع نشمل تحليل المتطلبات، وتصميم النظام، والتطوير، والاختبار، والنشر، والدعم ما بعد التنفيذ لضمان الجودة والأمان والامتثال.

01
Analysis

To serve you in the best way, we listen to your business problems and requirements, then analyze them to determine the main objectives of the required system.

02
Design

After setting the goals, we design the best technical solutions to implement all goals correctly and in the most flexible and user-friendly way.

03
Implementation

We implement the final design using the best programming languages and the latest technologies to ensure data security and integrity.

04
Testing

We provide a trial version of the system to ensure all objectives are met and issues are resolved. then we make the necessary adjustments after testing.

RISK MANAGEMENT & BUSINESS CONTINUITY

AILATIX applies structured risk management practices throughout project execution and system operations to identify, assess, and mitigate technical operational, and security related risks

The company ensures service continuity through controlled system architecture data protection measures, regular backups, and defined recovery procedures. These measures support system availability, minimize service disruption, and ensure continuity of operations in accordance with approved requirements

AILATIX implements information security and data protection measures throughout system design development, and operation to ensure the integrity, and availability of information

تطبق آبلاتكس ممارسات منهجية لإدارة المخاطر خلال تنفيذ المشاريع وتشغيل الأنظمة، بهدف تحديد وتقييم ومعالجة المخاطر التقنية والتشغيلية والأمنية.

كما تضمن الشركة استمرارية الأعمال من خلال بنية أنظمة محكمة، وإجراءات حماية البيانات، والنسخ الاحتياطي الدوري، وخطط الاستعادة المعتمدة، بما يضمن توفر الأنظمة وتقليل الانقطاعات التشغيلية وفق المتطلبات المعتمدة

Information security practices are applied in alignment with relevant national cybersecurity and data protection regulations

AILATIX SERVICES

Specialized systems
Design, development, implementation, and maintenance of customized enterprise information systems in accordance with approved technical and operational requirements

E-commerce
Online stores are vital for sales, expanding markets, reducing costs, and enabling global access regardless of location or time.

Mobile applications
Our mobile apps enhance communication, services, branding, user experience, interactivity, and easy access to information.

Business Intelligence (BI)
Uses data tools to analyze and visualize business data, providing insights for better decisions, trend spotting, and performance improvement.

Dancing fountains
Leading Arab company offering innovative, integrated dancing fountain design and implementation solutions

Graphic design
Graphic design is a link between the public and the company and has an exceptional role in competition

Data warehousing
Data warehousing centralizes, cleans, and structures data for analysis, enabling strategic insights and decision-making.

Smart Home
Expert in designing, supervising, and programming smart home systems to ensure full feature enjoyment.
